FINE CABINETS

DARE TO DREAM

ASCENT FINE CABINETRY

WELCOME

It was over three decades ago that I began a career in the residential construction industry. My interest in cabinet making began while learning the craft of trim carpentry. Since then, my passion has evolved into the skilled workmanship reflected on the pages before you.

Throughout the years, our clients' desire for custom, creative and distinct cabinetry has grown steadily. At the same time, I observed that the customization and quality of manufactured cabinetry was not meeting customer's expectations. This trend served as my inspiration to bring a superior product to our clients.

What began as a dream in the garage of our home, has grown into a specialty workshop and showroom in Ada, Michigan. Our gifted team of craftsmen design and create beautiful cabinetry that fulfills each client's unique specifications. We value collaboration and customization and believe a well-constructed and thoughtfully planned cabinetry layout is the foundation of a functional and aesthetically pleasing space.

At Ascent Fine Cabinetry, we work to maintain our reputation of reliability, quality and service. These core principles coupled with a deep knowledge of the construction process are what set us apart in the industry. We welcome the opportunity to discuss your cabinetry plans with you. It would be an honor to help make your vision a reality.

On behalf of our team, thank you for considering Ascent Fine Cabinetry.

Todd Wilde | Founder of Ascent Fine Cabinetry

WHERE EVERYONE GATHERS AND PROJECTS BEGIN

{FEATURE} The kitchen is the gathering place for many. Let us help craft those memories with a well designed kitchen by Ascent Fine Cabinetry.

{BOTTOM} Welcome to our showroom where we meet, listen, and plan. Our island is the center of collaboration where we launch great ideas and long lasting relationships.

Located in Ada, Michigan, just outside the famed furniture city of Grand Rapids, sits our workshop where we craft our tailor-made cabinetry.

We at Ascent Fine Cabinetry take great pride in our West Michigan heritage. The tradition carried on by generations of fine craftsmen and wood working tradesmen is part of who we are. We are proud to say, "Crafted in Ada, made in Michigan."

We believe in excellence as a standard. Let Ascent Fine Cabinetry draw upon our craftsmen and take the time to produce furniture-like cabinetry to match your vision. From kitchens, bathrooms, entryways, offices and specially designed spaces, we believe quality driven, functional cabinetry is the foundation of your unique space.

DESIGN

RENDERED CRAFT

TAILORED EXPECTATIONS

Whether you envision a modern concept or a period piece reminiscent of time spent with grandma in her kitchen, it is these inspirations that are realized through a design philosophy built upon understanding your past and tailoring to your future. By listening carefully to your preferences, our goal is to capture your expectations and translate them into a plan. We harness your vision into dimensioned drawings so you fully understand the direction of your project.

It is our philosophy to create a final design that reflects your ideas and needs beyond measurements and specifications.

Ascent Fine Cabinetry – designing and tailoring expectations.

ASCENT FINE CABINETRY | MADE IN ADA MICHIGAN

TRADITION BROUGHT TO LIFE BY ASCENT FINE CABINETRY

{FEATURE} Sophisticated period piece with great lines, color, and texture.

{ABOVE} Face frame with inset door cabinets. To add another layer of texture, we designed a mix of drawer styles including wire mesh to a select few cabinet faces.

{LEFT} A well-appointed butler pantry gives the appearance of a galley kitchen, blending form and function, perfecting the space while maximizing functionality. Custom colors and finishes create lasting beauty.

### ORGANIZED STORAGE SOLUTIONS

{BELOW} Our cabinet interiors and drawers can be designed to your specification. We have a solution for all applications to ensure storage is organized and functional.

RENOVATION OR NEW CONSTRUCTION

REVITALIZING & INSPIRING

HARMONIZING VISION

Who doesn't love a great before-and-after story? The team at Ascent can revitalize existing spaces to fit new concepts. Our collaborative approach in working with contractors and designers includes studying workflow, adjacent spaces, and traffic patterns. By designing a harmonious space, we bring an inspiring vision to your renovation project.

Ascent Fine Cabinetry will help you navigate through the process. We listen, understand, and guide you through design and construction by working with your builder, architect, or interior designer from concept to finish. Leaving nothing to interpretation and paying attention to the details is our business. Drawing from our long history of residential construction and custom millworking, we put our experience and craftsmen to work for you.

We are steeped in skill and tradition, but we also study the production process in detail. Ascent Fine Cabinetry’s state-of-the-art production facility is an evolution in manufacturing, something our forefathers could only dream of.

Our CAD software integrates with our CNC automation process to optimize material use. The Ascent team takes your approved design through a precise manufacturing process, limiting waste and recycling sawdust into local livestock bedding. Our promise to source ultra-low-emitting formaldehyde plywood is part of our commitment to sustainable practices.

Stop by our shop in Ada, Michigan. We would love to show you our workspace. Welcome.

### DESIGN

- In-house design or collaboration with designer of client's choice
- Both standard options and complete customization available
- On-site measuring of space and site layout to ensure a perfect fit and smooth installation

### CRAFT

- Hardwood dovetail drawers with premium Blum™ soft close hardware components
- Solid plywood box with full backs featuring grooved and dado construction
- Gang construction techniques which eliminate the need for fillers, unsightly joints, and seams
- Mitered flush-end panels for a furniture like finished product

### FINISH

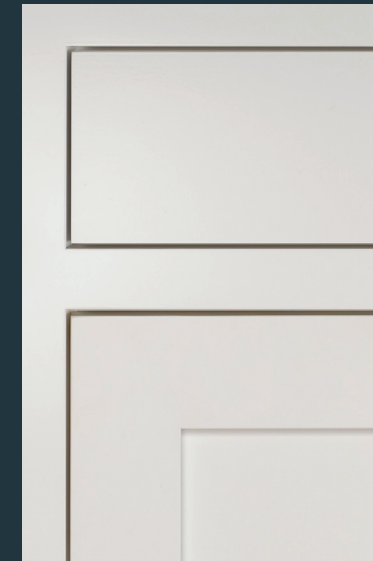

- Premium catalyzed finishes
- Easy to clean, water and stain resistant
- On-site finishing available for best concealment of fasteners associated with applied mouldings

### INSTALLATION

- We offer delivery and installation of your custom cabinetry to ensure that the finished product meets your standards

## C A B I N E T R Y S T Y L E O P T I O N S

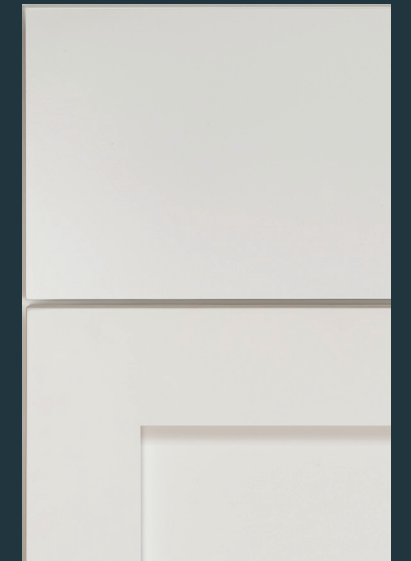

FACE FRAME WITH INSET

Inset cabinetry showcases doors and drawers that fit precisely inside the face frame openings. This type of cabinet construction gives a full view of the cabinet frame. Clean lines, flush doors, and the options of exposed or concealed hinges are features of inset cabinetry.

FACE FRAME WITH OVERLAY

Overlay cabinetry features door and drawer fronts that almost completely cover the cabinet face, revealing 1/4" of frame between cabinet units. This creates a continuous look and minimizes the visible gaps between each cabinet door.

FRAMELESS WITH FULL OVERLAY

Frameless cabinetry is sometimes called “full access” cabinetry because it offers greater accessibility by eliminating the face frame. To do so, the cabinet relies on thicker box construction for more stability. Only full overlay doors can be used with hinges attached directly to the sides of the cabinet box.
